- Initial discussion between Budget Council and CLAS New Faculty Finance Committee
  - The new Faculty Finance Committee from CLAS explained the process of electing the faculty representatives and discussed their future plans. The groups had only been elected and charged a very short time so it was decided to have a representative report back to the Budget Council during the January meeting. The Budget Council did discuss the links being provided on the Council's webpage and suggested that as the Committee found other sources of data valuable that the Council would try to make similar data available to all UF faculties.
