Natalie:

I fully support the PhD proposal. Our Department has strong collaborative ties with PPHP and this PhD program will enhance our existing graduate training opportunities. It is likely that our Department faculty will directly participate in this new PhD program. Thus, our Department will be happy to recommend the Graduate Council approve your PhD proposal. Let me now if you need additional documentation of our support.

Paul,

On next Thursday, February 18, PPHP will be having our PhD proposal reviewed by the Graduate Council. Dr. Hoffsis suggested that we contact you for an e-mail or letter stating that vet med supports our proposal or at least does not oppose our proposal. Steve Roberts and Dave Barber have been involved in the PhD proposal development.
