Conference

Hi Tony,

I didn't get your first message, but this one made it. I've had one worm or another on three machines over the past few weeks, so I know very well how infuriating it is.

I'm delighted to hear from you and to learn you find what we're doing of interest. I'm copying my coalition co-chair Jim Earl on this, because I'll be leaving for time overseas soon, and Jim will be managing most of our communications this term. We'll look forward to learning how colleagues at Florida see these issues.

Best,  
Bob
